

K5 Curriculum

English/Language Arts	
	<p>The Letters and Sounds activity pages reinforce phonics learning that includes short and long vowels, consonant and vowel blends, one and two vowel words, special sounds, and sentence comprehension.</p>
Bible	
	<p>BJU Press Bible Truths include doctrinal truths, character traits emphasis, memory verses utilizing colorful visuals. Catechism questions are introduced and reviewed. Character stories and application questions help students understand who God is and the importance of living His way.</p>
Reading	
	<p>My Blend and Word Book is a basic phonics review. Students also begin reading in the Basic Readers set and other supplemental readers as they progress.</p>

Numbers

The Numbers Skills workbook reinforces number concepts and formation of numbers through 100, simple addition and subtraction, telling time, number sequence, number words and working with money. Students learn to write numbers by number families, counting by ones, twos, and fives.

Science

Students explore Science with activities that include God's plan for health, seeds, animals, seashores, weather, and seasons.

Social Studies

Social Studies introduces community helpers, beginnings of American history, interesting features from countries around the world and simple geography. Colorful visuals aid in the teaching of this class.

Skills Development

Developmental Skills include this colorful “Think and Learn” consumable book that features coloring, mazes, directed art, graphs, sequencing and other activities. The purpose is to help develop writing skills, eye hand coordination, visual perception, listening and thinking skills and good character.

Art Projects for K5 include basic art concepts with a variety of projects. The projects include coloring, printing, painting, tracing, drawing, and gluing. The projects correlate with academics, Bible, and the seasons.

Character development visuals provide good talking points to encourage polite behavior.

Penmanship

As students learn to form letters, write words and even sentences, they continue to review phonics.

Health

The health visuals provide good discussion materials for teaching the importance of getting plenty of sleep, wearing seatbelts, and other health and safety tips.
